Table of Contents

Preface

Chemical Vapor Deposition of Diamond and Ceramic Coatings
K.E. Spear 3

CVD-Grown Boron Phosphides: A Thermodynamical Adsorption Model to Understand the Growth of Different Kinds of Boron Phosphides
E.M. Kelder, P. van der Put and J. Schoonman 13

Aspects of Large-Area and Area-Selective CVD
J. Carlsson 29

Chemical Potentials Driving Diffusional Flow in Multilayers
F. Spaepen 43

Stress and Volume Changes in Amorphous Mo/Si Multilayers on Annealing
O.B. Loopstra, E.R. van Snek, T.H. de Keijser and E.J. Mittemeijer 55

Kinetics of Gas-Solid Interactions
H.J. Grabke 69

Phase Transformations and Nitrogen Redistribution on Oxidation of Iron-Nitride Layers
M.A.J. Somers, B.J. Kooi, W.G. Sloof and E.J. Mittemeijer 87

Protective Properties of Chromia and Alumina Scales
P. Kofstad 99

The Precious Metal Effect in High Temperature Corrosion
J.H.W. de Wit and P.A. van Manen 109

Adhesion of Oxide Scales
R.A. Rapp 119

High Temperature Oxidation and Sulphidation and Its Prevention by Ceramic Coatings
P.J. Gellings and T. Fransen 129

The Use of Variable Energy Positrons in Studies of Surface Layers and Interfaces
P.J. Hautojärvi 145

Applications of Neutron Reflectometry in Surface Science
R.K. Thomas, J.R. Lu and J. Penfold 153

Magnetic Thin Layers Studied by Polarized Neutrons
M.T. Rekveldt, W.H. Kraan and H. Frederikze 163
