ISBN(softcover): 978-3-0364-0199-7 ISBN(eBook): 978-3-0364-1199-6

Table of Contents

Preface

Chapter 1: Steel and Alloys

The Effect Addition of (Silicon and Silver) and Heat Treatments to the Alloy Properties (Copper - Nickel - Tin)
A. Dhayea Assi, Z. Thamer Abdulwahid and S. Hussein Omran 3

The Effect of Heat Treatment for Alloys (Aluminum - Copper) on some Mechanical Properties
A. Dhayea Assi, Z. Thamer Abdulwahid and S. Hussein Omran 13

Chapter 2: Chemical and Biochemical Processes

Studying the Factors Affecting De-Emulsification of Crude Oil
Z.Q. Atshan and M.A. Mohammed 25

Maximizing High Value Light Products by Catalytic Cracking of VGO Produced by Iraqi Refinery over Formulated FCC Catalyst
S.G. Abdulridha, A.J. Radhi, M.N. Abbas, A.K. Shehab and W.M. Aluaibi 31

A Review: Membrane Reactor for Hydrogen Production: Modeling and Simulation
A.H. Kassi and T.A. Al-Hattab 41

Transesterification of Waste Cooking Oil Using Natural and Chemical Materials as Catalyst
M.F. Abdul Jabbar, A.D. Affat and L.B. Hamad 57

Depth Treatment of Engineering Applications Wastewater Using a Sequential Heterogeneous Fenton and Biodegradation Approach: Review
S.B. Abdulkareem 65

Chapter 3: Geotechnics and Structural Engineering

Characteristics of Clay Soils Utilizing Okra Tips
K.W. Abd Al-Karem, M.D. Noori, M.K. Hameedi and Z.H. Shaker 79

Three Dimensional Finite Element Model of Railway Ballasted Track System under Dynamic Train Loading
Z.A. Alkaissi 87

Modeling of FRP Strengthening of RC Girder Curved Soffits
M.Z. Kareem and Q.W. Ahmed 99

Waffle, Ribbed and Composite Joists Slabs: A Review Study
A.S. Al-Issawi, N.H. Alshareef and A.S. Al-Ameeri 107

Chapter 4: Concrete Technology

A Review of Shear Strength of Hybrid Fiber Reinforced Geopolymer Concrete under Ambient Condition
H.H. Munthir and H.M.A. Albegmprli 121

The Effect of GGBFS on the Rheological and Compressive Strength Properties of Oil well Cement Slurries by Using "Superplasticizer"
W. Ali Hussein, A.S. Ali and Q.S. Noaman 133

Properties of Self-Compacting Concrete Containing Waste Tires Rubber as Aggregates and Filler Additives
A.S. Ali and T.M. Hasan 145

Chapter 5: Laser Applications

Review of Recent Laser Technology of Development Multi Qubit Gates Using Ion Trap Method
A.H. Atiya and M. Al-Temimi 159

Laser - Produced Functional Surfaces of Silicon and Quartz
M.J. Mahmoud and B.G. Rasheed 169

Chapter 6: Engineering Design

Selection the Material and Analysis of Knee Joint for Smart Transfemoral Prosthetic
M.Q. Ibraheem, A.A.H. Ali and Z.H. Sahti 179
