Table of Contents

Preface

Young's Modulus and Fracture Toughness of Silicon Nitride Ceramics at Elevated Temperature
T. Rouxel 3

High Temperature Mechanical Behavior of Silicon Nitride Ceramics
J.J. Meléndez-Martínez, M. Jiménez-Melendo, A. Domínguez-Rodríguez and G. Wötting 13

Controlled Porosity in Silicon Nitride
W. Redington, J. Lonergan, G. Le Gonidec, A. Díaz, H. Bilgen and S. Hampshire 19

Preparation of Si_3N_4 from Carbothermal Reduction of SiO Employing the CRTA Method
M.D. Alcalá, J.M. Criado and C. Real 25

Effect of Starting Si_3N_4 Powder Type and Sintering Conditions on the Grain Morphology of α-SiAlON Ceramics
Ş.R. Kuşhan and H. Mandal 31

Transmission Electron Microscopy of SrO Containing Multi-Cation Doped α-SiAlON Ceramics
S. Turan, H. Mandal and F. Kara 37

Fabrication of Layered Mullite-SiAlON-SiC Composites from a Preform by Nitridation and Oxidation
J. Pascual, A. Ramírez del Valle and P.J. Sánchez-Soto 43

Study by Impedance Spectroscopy of a Layered Mullite-SiAlON-SiC Composite Prepared from a Preform by Nitridation and Oxidation
J. Pascual, J.R. Ramos-Barrado, A. Ramírez del Valle and P.J. Sánchez-Soto 49

Second Phase Evolution in a Yttria-Sintered Aluminum Nitride Ceramic
M. Zarinejad and R.A.L. Drew 55

High Temperature Mechanical Behaviour of Glass-Ceramics in the YSiAlON and ErSiAlON Systems
A. Bondanini, G. Massouras and J.L. Besson 71

The Formation of B and I_W Phases in the YSiAlON System: Influence of Nitrogen Content
A. Díaz, Y. Menke and S. Hampshire 79

Cerium SiAlON Glasses as a Model for the Immobilisation of Nuclear High Level Wastes
A. Díaz, P. Verdier, Y. Laurent, I. Carrizosa and J.A. Odriozola 87

Incorporation of Nitrogen into AlPON and Mixed MAlPON(M=Ga, In, Tl): Effects on Structure and Thermal Stability
A.M. M'arquez 97

DRIFTS Study of Acetone Adsorption over AlPON Catalysts
M.A. Centeno, M. Montes, J. Fernandez-Sanz and J.A. Odriozola 105

Characterisation of Gold Catalysts Supported on Titanium Nitride and Oxynitride
M.A. Centeno and M.J. Lloret 111

Enhancement of Iron Magnetic Moment and Related Electronic Structure Resulting from Metal Substitution in Ternary $Me_xFe_{1-x}N$ Nitrides
R.S. de Figueiredo, A. Legris and J. Foct 119

High Temperature Oxidation of a High N, High Si, Mn Free Austenitic Stainless Steel
A. Paúl, S. El-Mrabet and J.A. Odriozola 125

Chemical Analysis of Nitrogen in Steel
T. Dorado, A.G. Coedo and B.J. Fernández 131

Superhard Nanocomposite Ti-Si-N Coatings
F. Vaz and L. Rebouta 143

Structural Development in Hard Si-Based TiN Coatings as a Function of Temperature: A Comprehensive Study in Vacuum and in Air
F. Vaz, L. Rebouta, S. Carvalho, L.A. Rocha, D. Soares and E. Alves 151

Properties of Complex Systems Derived from Molecular - Dynamics Simulations
L.J. Alvarez 161

Charge-Transfer Interaction Potential for AlN
G. Fernández Catá, G. Rojas Lorenzo, J.A. Odriozola and L.J. Alvarez 171

A DFT Study of Au Deposition on (001) Surface of TiN
N. Cruz Hernández and J. Fernandez-Sanz 177

Characterization of Hexagonal Boron Nitride Powders
P.J. Sánchez-Soto, A. Ruiz-Conde, M.C. Jiménez de Haro, J.M. Martínez-Blanes and G. Colón 185

Measurement of (P,P) Elastic Cross-Sections for ^{14}N and ^{27}Al at Laboratory Angles of 178° and 140° in the Range 0.5 2.5 MeV
A. Paúl, A.R.L. Ramos, L. Rijniers, M.F.d. Silva and J.C. Soares 191
