Developmentally Appropriate Curriculum: Best Practices in Early Childhood Education

Table of Contents

Cover

Table of Contents

Chapter 1: Introduction

- A Good Beginning is Essential
- What is Early Childhood Education?
- Early Childhood Education is Growing
  - The Early Years are Important Learning Years
  - Family Interest in Early Education is Growing
  - Early Intervention Pays off for Children and Society
- Children and Families in Early Childhood Education
  - Early Childhood Programs Serve a Diverse Population of Children and Families
  - Families are Children's First Teachers
- Early Childhood Programs vary in Structure and Scope
- Early Childhood Professionals Come to the Field in Many Ways
  - What Makes Someone an Early Childhood Professional?
- How Does Program Quality Affect Early Childhood Education?
  - Quality Makes a Difference
  - What Do High-Quality Programs Look Like?
- Looking Toward the Future
- Key Words

Chapter 2: Developmentally Appropriate Practice

- Why is there a need for DAP?
  - Program Quality
  - Dealing with Pushdown Curricula
  - Closing the Achievement Gap
- The Early Chilhdood Profession Responds
- Professional Support for DAP
- What it Means to be Developmentally Appropriate
  - DAP is Age Appropriate
  - DAP is Individually Appropriate

Pearson

Table of Contents

DAP is Socially and Culturally Appropriate

The Essence of Developmental Appropriateness

General Practices Typically Associated with DAP

Brain Science and DAP

It Requires Judgment to Determine Developmental Appropriateness

DAP has Historic Roots

There is Empirical Support for Developmentally Appropriate Programs

Let's Consider Diversity

Dap Programs Vary in Structure and Content

DAP is Adaptable Across Program Settings

DAP is Adaptable Across Curriculum Models

The Highscope Early Childhood Curriculum

Origins

Central Principles

Where Readers Can Find Out More

The Reggio Emilia Approach to Early Childhood Education

Origins

Goals

Content/Focus

Methods

Role of the Teacher

Role of the Children

Assessment

Where Readers Can Find Out More

The Ongoing Discussion About DAP

What Does the DAP Discussion Mean for Early Childhood Practitioners?

Implications of DAP for Professional Practice

Summary

Key Words

Chapter 3: Organizing Space, Materials, and Time

Principles of Organizing the Physical Environment

Safety

Comfort

Space

Sound

Equipment and Material Size

Table of Contents

- Mobility
- Attractiveness
- Storage
- Arranging the Classroom
- Arranging Outdoor Environments

Learning Centers

Creating and Using Learning Centers

Examples of Centers

- Language Arts Center
- Creative Arts and Construction Center
- Science and Collections Center
- Math and Manipulative Materials Center
- Blocks Center
- Pretend-Play Center
- Large-Group Center
- Sand and Water Centers
- Nature Study Center

Implementing Learning Centers

- Getting Started
- Structuring Self-Sustaining Centers
- Deciding how Many Centers to Make Available
- Monitoring Children's Use of Centers
- Evaluating Children's Skill Development During Center Time

Adjusting the Physical Environment

- Adding to the Environment
- Removing Something from the Environment
- Altering the Environment

Selecting Materials for Each Curricular Domain

General Guidelines for the Selection and use of Materials

- Provide for Firsthand Experiences with Real Things
- Provide Complete, Safe, and Usable Materials
- Provide Literacy-Related Materials in All Centers
- Provide Materials Representing National and Local Diversity
- Demonstrate Proper Use of Materials and Equipment
- Purchase Sturdy, High-Quality Equipment and Materials
- Demonstrate Proper Care and Storage of Materials and Supervise Children as They Take on Organizational Tasks

Table of Contents

Incorporate "Loose Parts" from the Natural Environment and from Discards
Ensure a Variety of Materials to Support Each Domain
Give Reasons for the Standards You Set for Children's Use of Materials
Use the Same Materials for Many Purposes
Creating A Daily Schedule
Routines
Pace
Variety
Balance
Adapting a Schedule that Works for Your Children
Integration
Schedule Preparation: A Guide
Schedule Implementation
Sample Schedules
Key Words
Chapter 4: Child Guidance in Early Childhood Education
What Children Need to Know
Self-Regulation
How Self-Regulation Evolves
The Earliest Days
Adherence (External Regulation)
Identification (Shared Regulation)
Internalization (Self-Regulation)
Degrees of Self-Regulation Among Children and Within the same Child
Developmental Influences on Self-Regulation
Emotional Development
Cognitive Development
Language Development
Memory Skills
How experience Influences Self-Regulation
Modeling
Instruction
Consequences
How Adult Discipline Styles Influence Children's Self-Regulation
The Uninvolved Discipline Style
The Permissive Discipline Style

Table of Contents

The Authoritarian Discipline Style

The Authoritative Discipline Style

Adopting an Authoritative Approach to Child Guidance

The Relation Between Authoritative Teaching and DAP

Authoritative Teaching and the Importance of Teamwork among Staff

Questions Adults ask about Promoting Self-Discipline in Children

Isn't Just Saying "No" Faster and Better?

Shouldn't Children Already Know how to Behave by the Time they get to Kindergarten and First and Second Grade?

What's the Story on Rewards? I've Heard Some People say they are not Developmentally Appropriate

How Can we Promote Consistency Between the way Guidance is Handled in the Early Childhood Setting and How it is Addressed at Home?

What can be done when Conflicts Exist Between the Teacher's and Families' Approaches to Discipline?

Summary

Key Words

Chapter 5: Authentic Assessment for Evaluating and Guiding Children's Progress

The Changing Face of Early Childhood Assessment

Responsible Early Childhood Assessment and Evaluation

Examining the Evaluator's SubjectivityObjectivity and Skills

Obtaining the Childs Best Response

Choosing an Evaluation Setting

Determining the Timing of the Evaluation

Selecting Data Collection Strategies and Tools

Standardized Testing: What Part Should it play in Evaluating Children's Progress?

The Concept of Authentic Assessment

Strategies for Authentic Assessment in the Early Childhood Classroom

Screening and Readiness Procedures

Structured and Nonstructured Observation

Oral Reading Tests: Running Records

TeacherChild Miniconferences

The Ecomap

Self-Appraisal by the Child

Organization and Use of Authentic Assessment and Evaluation Data: Portfolios

Table of Contents

and Student-Led Conferences

Portfolios: Matching Assessment with How Children Learn

Student-Led Conferences: Bringing Parents and Others into the Process

Assessing and Evaluating Children's Programs

Summary

Key Words

Chapter 6: Strengthening Developmentally Appropriate Programs Through Family Engagement

The Changing Nature of Family Engagement in Early Childhood Education

Barriers to Family Engagement

Characteristics of Effective Family Engagement

Collaboration

Variety

Intensity

Individuation

Effective Family Engagement Techniques

Establishing Relationships with Families

Gathering Information from Families

Keeping Families Informed

Establishing Two-Way Communication Between Families and the Program

Integrating Families into the Program

Involving Men in Early Childhood Programs

Providing Family Education

Helping Families and Children Make a Successful Transition

Facilitating Family-to-Family Support

Summary

Key Words

Chapter 7: The Aesthetic Domain

The Arts Defined

Aesthetics Defined

Scope of this Chapter

Aesthetic Education for Young Children

Importance of Aesthetic Learning

Relationship Between Aesthetic Learning and Knowing

Physical Knowledge Through Aesthetic Activities

Table of Contents

- Logical-Mathematical Knowledge Through Aesthetic Activities
- Representational Knowledge Through Aesthetic Activities
- Social-Conventional Knowledge Through Aesthetic Activities
- Metacognition in Aesthetic Learning

Children's Acquisition of a Fundamental Knowledge Base for Aesthetic Development

- Development of Aesthetic Preferences
- Development of Musical Interests
- Development of Vocal Music (Singing) Behaviors
- Development of Instrumental Music Interests
- Development of Creative Movement and Dance Interests
- Development of Visual Art Expression
- Development of Enactment or Dramatic Behaviors

Aesthetic Learning and the Teacher's Role

Current Educational Issues

- Teaching the Arts Without Special Training
- Teaching the Arts by Using Adult-Designed Products
- Responding to Childrens Creative Products

Purpose and Goals

Teaching Strategies

Pitfalls to Avoid

- Don't Focus on Making a Model When Demonstrating
- Don't Hurry Children
- Don't Waste Children's Time
- Avoid Overdirecting
- Don't Reinforce Only a Realistic Approach
- Use Praise Sparingly

Approaches to Teaching the Arts

Activity Suggestions

Summary

Key Words

Chapter 8: The Affective Domain

Emergence of the Emotional Self

Self-Awareness and Sense of Competence

Concepts of Emotional Intelligence

Stress and Resilience: How Children React to Overwhelming Emotional Demand

Table of Contents

- Coping with "Normal Life Stressors"
- Children in Toxic and Violent Environments
- Developing Resilience

Affective Development in Children With Special Needs

- Autism
- Attention Deficit Hyperactivity Disorder
- Sensory Processing Disorders
- English Language Learners

Current Educational Issues

- Including Affective Education in the Curriculum
- Potential Lack of Professional Competence
- Appropriate and Inappropriate Touch in Early Childhood Settings
- Acquiring Self-Esteem: Can It Be Taught or Must It Be Developed?

Purpose and Goals for Affective Development

Affective Teaching Strategies

Activity Suggestions

Summary

Key Words

Chapter 9: The Cognitive Domain

Cognitive Maturation

- Contributions of Neuroscience to Understanding Children's Cognitive Development
- Brain to Mind: Neural Development and Cognitive Processing

Children's Acquisition of a Fundamental Knowledge Base for Cognitive Development

- Engaging Children's Thinking
- The Young Child as Scientist
- The Young Child as Mathematician

Current Educational Issues

- Using a Constructivist Approach versus Direct Instruction
- Using Calculators and Computers in the Early Childhood Classroom
- Using Worksheets and Workbooks as a Primary Teaching Mode for Mathematics
- Constructing Optimal Environments

National Expectations and Standards

Purpose and Goals for the Cognitive Domain

Teaching Strategies

Activity Suggestions

Table of Contents

Science Activities

Mathematics Activities

Summary

Key Words

Chapter 10: The Language Domain

Oral Language Development

Red Flags in Early Speech and Language Development

Children's Acquisition of Literacy

The Importance of Phonological Awareness

Enhancing and Scaffolding Childrens Emergent Literacy

A Balanced Literacy Program

Integration of Language Experiences Across the Curriculum

Teaching Children Who Have Limited English Proficiency

Current Educational Issues

Scripted Reading Instruction

Correcting Children's Journal Writing

Taking Dictation from Children

Purpose and Goals

Teaching Strategies

Activity Suggestions

Summary

Key Words

Chapter 11: The Physical Domain

Physical Activity

Importance of Physical Activity

Principles of Motor Development

Fundamental Motor Skills

Perceptual-Motor Skills

Fine-Motor Skills

Movement Concepts

Physical Activity of Children who have Special Needs

Health, Safety, and Nutrition

Fitness

Comprehensive Health Curriculum

Selected Health Topics

Current Educational Issues

Table of Contents

- Purpose and Goals
- Teaching Strategies
  - Gross- and Fine-Motor Skills
  - Perceptual-Motor Skills
  - Health, Nutrition, and Safety
- Activity Suggestions
- Summary
- Key Words

Chapter 12: The Social Domain

- The Importance of the Social Domain
- Social Skill Development
  - Social Competence
  - Early Social Development
  - Children's Friendships
  - Prosocial Behavior: Acting Positively Toward Others
- Socialization: Children's Behavior and Adult Expectations
- Social Responsibility
  - Celebrating Diversity
  - Becoming Environmentally Aware
- Social Studies
  - Standards and Goals for Social Studies
  - The Relationship Between Social Studies Standards/Themes and Traditional Subject Matter
  - Social Studies in the Classroom
- The Relationship Between the Social Domain and Cognition
- Current Educational Issues
  - Teaching Peace Through Conflict Mediation
  - Embracing Diversity: Interpretations and Misinterpretations
  - Determining how the Social Domain Fits into the Daily Routine
- Purpose and Goals
- Teaching Strategies
- Activity Suggestions
- Summary
- Key Words

Chapter 13: Integrating Curriculum Through Pretend and Construction Play

- Characteristics of Play

Table of Contents

- The Play Frame
- Elements of Pretend Play
- Applications of Pretend Play

Construction Play

- Types of Construction Projects
- Comparison of Construction and Other Related Activities
- Construction and Materials of Choice
- Independence of Materials from the Ideas They Represent
- Individual Differences in Children's Pretend and Construction Play

Pretend and Construction Play Across the Curriculum and in Development

- Cognitive Domain
- Aesthetic Domain
- Affective Domain
- Language Domain
- Physical Domain
- Social Domain

Integration of Multiple Domains

Teachers' Questions Regarding Pretend and Construction Play

- Promotion of Play Skills
- Customary Strategies to Enhance Play

Summary

Key Words

Chapter 14: Integrating Curriculum Through Thematic Planning and Projects

Defining Themes and Projects

How Themes and Projects Contribute to Children's Concept Development

- Conceptual Development
- Link Between Concepts and Thematic Teaching
- Additional Benefits for Children

Teachers' Benefits

Program Effects

- Focusing on Content
- Focusing on Process
- Integrating Content and Process

Pitfalls in Thematic Teaching

Principles of Effective Thematic Teaching

How to Create Thematic Units

Table of Contents

- Sources of Ideas
- Considering Essential Theme Criteria
- Creating an Information Base
- Developing Activity Ideas
- Making a Plan
- Implementing the Theme
- Adapting "Apples in the Schoolyard": An Apple Theme

The Project Approach

- Origins
- Methods
- Three Phases in the Life of a Project
- Phase 1
- Phase 2
- Phase 3
- Assessment
- Distinctive Features
- Where Readers Can Find Out More

Common Questions about Themes and Projects

- Must Every Activity Relate to the Theme or Project?
- How Long Does a Typical Thematic Unit or Project Last?
- Is There a Difference Between Planning Themes for 3- and 4-Year-Olds and Planning Themes for 6- to 8-Year-Olds?
- How Do I Use Themes and Projects with So Much Required Content to Cover?
- What About Repeating Themes?
- How Can I Document Childrens Participation in Themes and Projects?
- What About Having All My Themes and Projects Revolve Around Holidays?
- How Do I Know that Children are Developing More Sophisticated, Complex Concepts?

Summary

Key Words

Appendix: Sample Lesson Plans

Appendix: Field Trips

Appendix: The Big, Big Turnip
